

Dear Hiring Manager,

I am thrilled to apply for the Full Stack Internship position at BDO. As a third-year student at Toronto Metropolitan University, I am eager to put my year of experience in full-stack application development and testing to work in a dynamic and challenging environment.

Throughout my previous software engineering internship and personnel projects, I gained hands-on experience in building applications with React.js, Next.js, Node.js, and Nest.js. I am confident in my ability to develop and test APIs, as well as my proficiency in front-end and back-end development and database management.

I believe that this internship will provide me with the opportunity to further develop my technical skills, gain valuable experience, and make a valuable contribution to the team.

In addition to my technical abilities, I am a quick learner and a team player. I have excellent organizational and communication skills, and I am confident in my ability to work under pressure and meet deadlines. I am committed to excellence in everything I do and am eager to bring my energy and enthusiasm to your team.

Thank you for considering my application. I would welcome the opportunity to further discuss my qualifications and how I can contribute to the success of BDO.

Sincerely,

Edmund Chan
